Metadata Cleanup Tracking

Progress Report

Date	Total # of Repository Records (Published)	Total # of Updated Records	% of Updated Records
March 18, 2024	56,645	30,782	54.3%
April 12, 2023	55,881	23,035	41%
June 3, 2022	43,086	18,751	43.5%

Instructions

Use this **Drupal View** to update NNELS records:
<https://nnels.ca/admin/content/repo-items/summary-fixer>

1. If you're currently working on a Record Set, enter your initials in the Cataloguer field. Once you have completed adding all metadata to a Record Set, erase it from the Incomplete Records table and put a * in the Complete field of the Complete Records table.
2. If you find a record set in Drupal that is not in the list below, please add it to the list! We are constantly adding new Record Sets.
3. There is a filter in the view which identifies those records without a record set (Record set boolean drop-down then select empty). This is a substantial number of records. We can move on to updating these individual records once the record sets are completed.

Finding Record Sets in Drupal

1. Keep the Search Edit Box empty (this is only for Title searches and we are looking for Record Sets.)

1. Locate the Record Set within the Record Set Box and select it so it is highlighted.

1. Select Apply
2. Now you will see all the titles in the search results below.

1. You can now proceed to go through each title following the directions for [Fixing a Record in Drupal Step by Step](#)

After Completing a Record Set

- Delete the entry from the Incomplete Records Sets list
- Put a * in the Complete Record Sets list under the heading Complete

Incomplete Record Sets
