Import Project 1

Import Project

If you are working on a project that has already been added to the NNELS profile you can import and open it from here.

- Select the title from the dropdown menu for Project
- Select Import button
- The title will start importing
- Once it is imported you will be taken to a new page with the various tool options. See [Renaming and Reordering Tracks](#) for more info.

[Return to "Getting Started"](#).
