Books from NNELS Catalogue

If you are working on a book that is in the NNELS Catalogue, and have Uploaded the title by Sideloading the URL, the Metadata should be populated on this page.

- At the top of the page there is the heading MP3 Audiobooks from NNELS Catalogue
- In this section there is text that tells you if the metadata is complete, or if there are any errors.
- If there are errors or warnings you will need to manually check and update the text fields for the metadata as needed
 - Warnings include:
 - If there are no warnings found, text says: The metadata has been entered from the catalogue record. Please review and save before exporting title.
 - If title, author, language, narrator, producer, or copyright date is missing, text says: (item) not found. For example: Narrator not found
 - If the Author's name or Narrator's name contains a period, text says: Check the (author's or narrator's) name to be sure periods are correct.
- Review the metadata fields carefully and apply any changes needed. Do this even if there are no warnings.
- Once you have confirmed the Metadata select Save
- You will automatically be navigated back to the main project page where you can now Export the Book (and Pass to QA)
