Metadata Cleanup Tracking

Progress Report

Accurate as of February 17, 2021

Total # of Repository Records (Published)	Total # of Updated Records	% of Updated Records
39,106	17,502	45%

Instructions

Use this Drupal View to update NNELS records:

<https://nnels.ca/admin/content/repo-items/summary-fixer>

- Record sets below labelled  are a priority! - complete these first
- If you're currently working on a Record Set, enter your initials in the Cataloguer field. Once you have completed adding all metadata to a Record Set, erase it from the Incomplete Records table and put a * in the Complete field of the Complete Records table.
- If you find a record set in Drupal that is not in the list below, please add it to the list! We are constantly adding new Record Sets.
- There is a filter in the view which identifies those records without a record set (Record set boolean drop-down then select empty). This is a substantial number of records. We can move on to updating these individual records once the record sets are completed.

Finding Record Sets in Drupal

- Keep the Search Edit Box empty (this is only for Title searches and we are looking for Record Sets.)

- Locate the Record Set within the Record Set Box and select it so it is highlighted.

- Select Apply
- Now you will see all the titles in the search results below.

- You can now proceed to go through each title following the directions for [Fixing a Record in Drupal Step by Step](#)

After Completing a Record Set

- Delete the entry from the Incomplete Records Sets list
- Put a * in the Complete Record Sets list under the heading Complete

Incomplete Record Sets

21,604
