Wiki as a Service

To Do for launch

Create New Animal

Customizing individual Animal

- if using codo-wiki-updated theme, create `doku.php/cooperative:topbar` to get navbar; comment out cooperative space
- create sidebar page at root
- add VIU (or equiv logo); use colour R 0 G 57 B 95 (hex #00395F) to customize sidebar colours at `.codowiki_west {background:}` and `#dokuwiki__sitetools{}` and `.codowiki_west_header{}`.`indexmenu_nojs ul.idx li a{}` in `css.php` file

with customer before launch

- determine TLD or subdomain approach
- get logo if any, modify local css to match colour
- determine basic users and groups for security
- determine basic namespaces

To Share with new customer

- dokuwiki syntax - <https://wiki-dev.libraries.coop/wiki/syntax>
- dokuwiki manual - <https://www.dokuwiki.org/manual>
- available plugins - <https://www.dokuwiki.org/plugins>
